

# Global Understanding of Inclusive Education

Jugnu Agrawal, PH.D.

## What is Inclusion?

Providing to all students, including those with significant disabilities, equitable opportunities to receive effective educational services, with the needed supplementary aids and support services, in age-appropriate classrooms in their neighborhood schools, in order to prepare students for productive lives as full members of society.

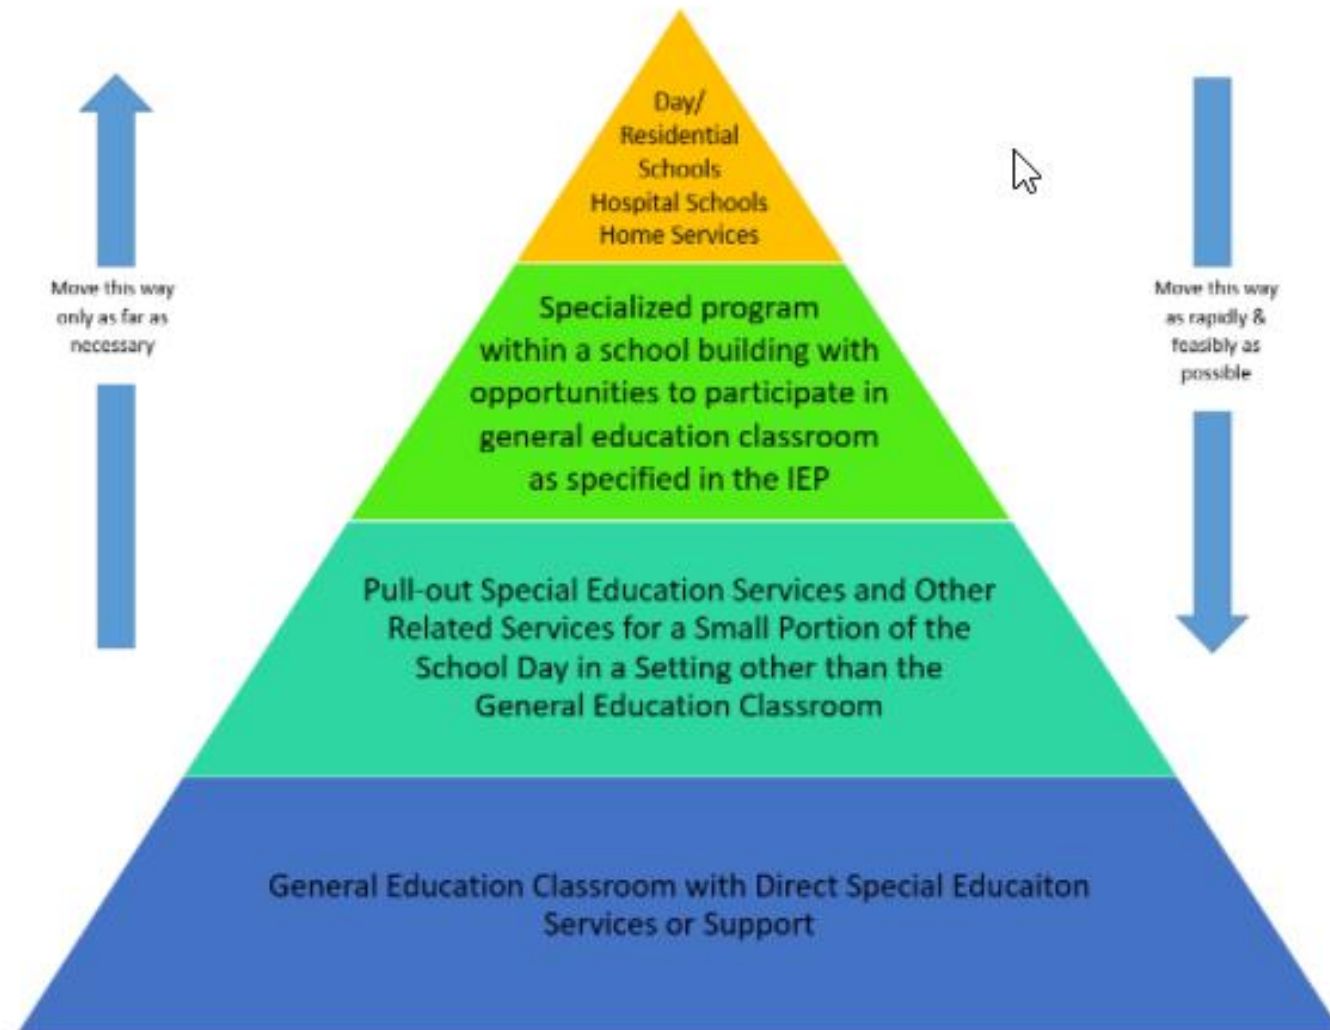

A close-up photograph of two hands, one light-skinned and one dark-skinned, clasped together in a supportive grip. In the background, a portion of a globe is visible, showing landmasses and oceans. The image is partially obscured by a dark blue banner at the bottom.

## People First Language

- People with disabilities are, first and foremost people.
- They are individuals with abilities, interests and strengths.
- Examples of People-first language:  
Child with autism instead of autistic child

# Continuum of Services

A close-up photograph of three hands of different skin tones (light, medium, and dark) clasped together in a supportive grip. In the background, a portion of a globe is visible, showing landmasses and oceans. The image is partially obscured by a dark blue triangular overlay at the bottom.

## Role of the IEP Team

- Each student who receives special education and related services should have an IEP
- IEP team makes placement decisions
- IEP team

A close-up photograph of two hands, one light-skinned and one dark-skinned, clasped together in a supportive grip. In the background, a portion of a globe is visible, showing landmasses and oceans. The image is partially obscured by a dark blue banner at the bottom.

## Benefits of Inclusive Practices

- Increased academic achievement
- Opportunities for peer tutoring & supports
- Improved attendance and behavior
- More direct instruction
- Increased student independence after high school

# Inclusive Education in Practice

A close-up photograph of three hands of different skin tones (light, medium, and dark) clasped together in a supportive grip. In the background, a portion of a globe is visible, showing landmasses and oceans. The image is partially obscured by a dark blue banner at the bottom.

## Common Characteristics of Inclusive Schools

Common understanding of disability and inclusive education

Self-determination skills and collaboration

Administrators value inclusion

Co-teaching

Engaging and evidence-based, data-driven instruction

A photograph showing three hands of different skin tones (light, medium, and dark) clasped together in a supportive grip. The hands are positioned over a background of a world map, with the map showing continents and oceans. The image is partially obscured by a dark blue triangular overlay at the bottom.

# Components of Inclusive Education

- Academic Inclusion
- Understanding by Design
- Universal Design for Learning
  - Differentiation
- Social/Emotional Inclusion
  - Physical Inclusion

# Universal Design for Learning in Action

# Implementation Considerations in the Inclusive Setting

Recognizing the barriers

Lack of collaboration

Knowledge and training of administrators and staff

A close-up photograph of two hands, one light-skinned and one dark-skinned, gently holding a small globe of the Earth. The globe shows parts of Asia and Australia. The hands are positioned as if supporting or cradling the globe. This image serves as a background for the top portion of the slide.

## Specially Designed Instruction

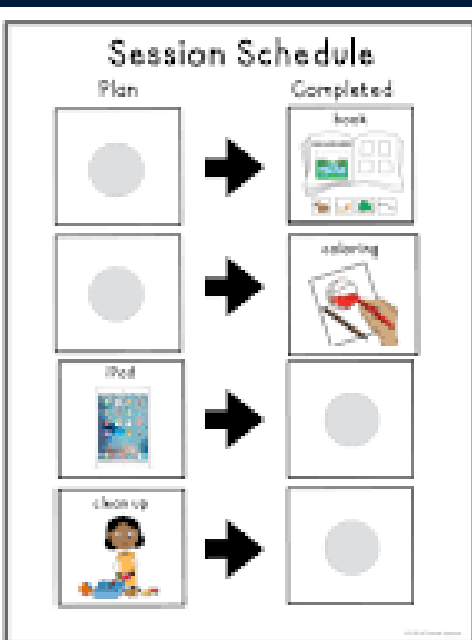

- Specially designed instruction is described as adapting, as appropriate to the needs of an eligible child, the content, methodology, or delivery of instruction to address the unique needs of the child that result from the child's disability and to ensure access of the child to the general curriculum.

## Appropriate Supplementary Aids and Services

- Augmentative and Alternative Communication Devices
- Environmental modifications
- Visual Supports
- Structured activities
- Small group instruction

# Accommodations

- Are alterations in the way tasks are presented
- Time/Scheduling
- Setting
- Response
- Presentation

A close-up photograph of two hands, one light-skinned and one dark-skinned, gently holding a small globe of the Earth. The globe shows parts of Asia and Australia. The background is a solid dark blue.

# Modifications

- Materials are adapted or texts are simplified
- Lower-level reading materials
- Different way of grading

## Assistive technology

- Any item, piece of equipment or product system, that is used to increase, maintain, or improve functional capabilities of a child with a disability.

# Facilitating Successful Transition

A close-up photograph of two hands, one light-skinned and one dark-skinned, clasped together and holding a small globe of the Earth. The globe shows parts of Asia and Australia. The background is a solid dark blue.

# I'm determined

## Recommendations for Fostering Inclusive Practices

- Develop an inclusive practice team
- Assess the school's current inclusive practices
  - Develop an action plan for inclusion
  - Develop the IEP to support inclusion
- Provide ongoing professional development
